# Please Read These Terms of Sale and Avoid Misunderstanding and Disappointment

as your bids will be accepted ONLY on the terms as specified below,  
and no exceptions can or will be made for any one.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

No commission charge will be made on coins purchased for you at this Sale.

Lots are sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer \$1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in catalog. But all claims must be made within thirty days from date of sale. And my guarantee means something to you. Remember that there are more than forty years of proven successful numismatic experience and ample financial responsibility back of this guarantee.

## NOTICE TO NEW BIDDERS

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

TERMS: The terms of auction sales are strictly cash. Parties unknown to me or those who have had no previous credit established, must send a deposit of at least 25% of their bids, otherwise they will not be accepted, as I cannot be expected to ship goods to parties whose good standing is not known to me.

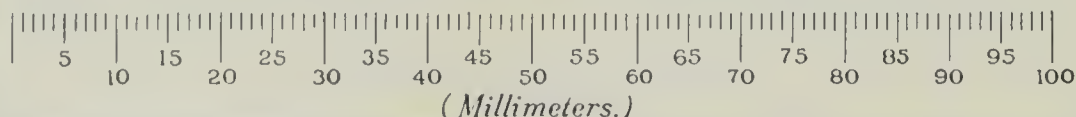

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing values of coins.

PLEASE SEND IN YOUR BIDS EARLY. All bids must be in on or before Tuesday, January 27, 1942.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

The size of Coins and Medals in this Catalog is given by Millimeters.

- 116 1880 Four Dollars. Flowing-hair type. Struck in aluminum, with wire edge. A-W 1632. Rarity 12. Only about eight minted. In actual point of rarity, it is far more rare than the gold specimen, although, of course, not as desirable. I understand that a specimen recently sold for nearly \$100.00. Perfect brilliant proof.
- 117 1880 Morgan's Metric Dollar. Liberty head with hair done up in knot. A-W 1640, Rarity 11. (Only twelve minted.) Copper proof. Valued up to \$35.00.
- 118 1881 Five Cents. Obverse, similar to regular issue. Reverse, large V in wreath. A-W 1650. Aluminum. Brilliant proof. Classed as Rarity 10. (Only about fifteen minted.) Can find no auction record for the past nine years.

## UNITED STATES SILVER DOLLARS

As is the case with all U. S. coins, the demand for them has increased so much in the last few years that the "permanent supply" is being spread out very thin. There are at least 100% more collectors today than there were just five or six years ago, and, of course, the supply of coins is no greater. Apply your own moral to this speech.

- 130 1795 Head type, variety with three leaves under wings. About fine. Scarce and in much demand.
- 131 1795 Second or bust type. Strictly very good. Scarcer than the first variety.
- 132 1797 Sixteen stars, six to right of bust. About fine. Very scarce. Retails at \$10.00.
- 133 1797 Seven stars to right of bust. Fine. Very scarce.
- 134 1798 Heraldic eagle. Wide date. Slight die breaks on obverse. Extremely fine; only a shade from uncirculated with frosty mint luster. Not a rare coin, but quite scarce so choice. Far more rare than is generally recognized.
- 135 1798 Heraldic eagle. Struck off center to right, leaving a wide margin to left and corresponding side of reverse. A curious mis-struck coin, for which there seems to be much demand now.
- 136 1799 over '98. Very plain over-date. Strictly fine to very fine.
- 137 1799 Perfect date. Beautiful **uncirculated** specimen. A tiny die defect on upper obverse edge. With beautiful full mint luster. Sharp, with every star filled. A real rarity so choice.
- 138 1799 Perfect date, the 9's irregular. Extremely fine, with mint luster. Very scarce so choice.
- 139 1799 Perfect wide date, with light die break through date. Practically uncirculated, with frosty mint surface. Quite rare so choice.
- 140 1799 The rare variety with five stars to right, and eight stars to left of bust. Fine to very fine. Far more scarce than is generally recognized. Listed at \$15.00 in very fine and certainly worth it.
- 141 1800 Die break on reverse, making the legend read AMERICA. Very fine, with some luster. Easily a \$10.00 coin, if not more.
- 142 1800 Perfect die. Very fine, with broad borders and perfectly centered. An attractive coin.
- 143 1801 Very fine, frosty surface. Very scarce. Listed at \$15.00.
- 144 1802 over '01. Very fine, bold impression. Very scarce so choice. Catalogs at \$12.50.
- 145 1802 Perfect date. Very fine; free from any nicks; perfectly centered. Slightest planchet mark on reverse. Very scarce so choice.
- 146 1803 Large 3 in date. About fine. Scarce.
- 147 1803 Small 3 in date. Strictly very good. Very scarce.

## The RARE and BEAUTIFUL FLYING-EAGLE DOLLARS

- 148 1836 Flying Eagle Dollar. The extremely rare variety with C. GOBRECHT between base and date. Brilliant proof. The obverse field is slightly rubbed, apparently from having been handled with other coins; considerable wire edge, especially on obverse. A most acceptable specimen of this very rare and beautiful coin. (Listed at \$200.00.)
- 149 1839 Liberty seated, thirteen stars. Reverse, flying eagle in plain field. Milled edge. Perfect brilliant proof. A gem. Very rare. Last record \$125.00.
- 150 1843 Liberty seated as last. Reverse, standing eagle. Very fine. These early Dollars are getting very scarce.
- 151 1844 Strictly fine. Scarce date.
- 152 1845 Extremely fine; light nick on obverse. Very scarce. Listed at \$4.00 in only fine condition.
- 153 1846 Uncirculated, with mint luster. Not a rare date, but very scarce so choice.
- 154 1849 Just a shade from uncirculated, with mint luster.
- 155 1850 Brilliant uncirculated with proof surface. Very scarce. Listed at \$12.50 in uncirculated condition. This one is almost equal to a brilliant proof.
- 156 1851 Brilliant proof, partly wire edge. Very rare. Has sold up to \$150.00. They are not now bringing that much, therefore, it is a mighty fine investment at prevailing prices of \$100.00 to \$125.00.
- 157 1852 Brilliant semi-proof. Originally purchased as a proof, but I doubt very much if it was so struck. The obverse to right of Liberty has few minute cabinet friction marks. But it is a beautiful specimen, worthy of a home in any collection. Catalogs at \$125.00 in uncirculated and certainly worth it.
- 158 1853 Extremely fine, nearly uncirculated. Very light nick on edge. Scarce date.
- 159 1854 Practically uncirculated, with frosty mint surface. Rare, especially so choice. Listed at \$17.50 in uncirculated.
- 160 1855 About uncirculated, with full mint luster. Just about as rare as last.
- 161 1856 Very fine. Scarce date.
- 162 1857 Very fine with some proof surface. Scarce.

- 163 1858 Perfect brilliant proof. A gem and one of the up and coming rarities. Although this Dollar has always been very rare, as only eighty specimens are said to have been struck but it has only been in the last year or two that this rarity has been appreciated. (Listed at \$85.00.) A similar specimen in the Dunham Sale brought \$75.00 and it would not surprise me to see this Dollar reach the \$100.00 mark in the very near future.
- 164 1859 Brilliant proof. Obverse field shows just the slightest cabinet friction. Very scarce and in great demand. Catalogs at \$10.00 and usually brings just about catalog listing, as do most of the proof dollars from here on.
- 165 1860 Brilliant proof. A hardly perceptible nick on obverse. Listed at \$10.00.
- 166 1861 Beautiful perfect brilliant proof with wire edge. Certainly worth its full listed price of \$10.00.
- 167 1862 Brilliant proof. Very scarce. Catalogs at \$7.50.
- 168 1863 Brilliant proof. Catalogs at \$8.00.
- 169 1864 Sharp perfect brilliant proof. Listed at \$8.50.
- 170 1865 Brilliant proof. Very scarce. Catalogs at \$8.50.
- 171 1867 Originally struck as a proof, but not in full brilliancy and shows slight cabinet friction.
- 172 1868 Brilliant semi-proof; slight cabinet friction on obverse, but a beautiful and acceptable specimen.
- 173 1869 Proof, complete wire edge; field on obverse shows slight cabinet friction.
- 174 1870 Brilliant proof. Just the slightest hairline on obverse, hardly visible.
- 175 1871 Brilliant proof. Catalogs at \$5.00.
- 176 1872 About uncirculated, with mint luster.
- 177 1873 Last year of the Liberty seated Dollar. Very fine. Scarce.
- 178 1878 First year of the Liberty head type. Variety with eight feathers in eagle's tail. Perfect brilliant proof; raised borders. Very scarce. Listed at \$12.50.
- 179 1878 The rare variety with seven feathers in eagle's tail. Brilliant proof. Obverse field shows the slightest cabinet friction. Rare. Listed at \$25.00 and a similar specimen in the Dunham Sale brought \$15.75.
- 180 1879 Perfect brilliant proof; partly wire edge. I doubt very much if, on an average, more than five hundred specimens of each date were struck of these proof dollars, and certainly a much less number exist today. They have more than doubled in value in the past few years. They are now bringing at auction just about their full listed price. As these Dollars catalog at not less than \$4.00 each, please make your bids accordingly. This remark is not intended as a limit, but simply as a suggestion to save both of us time.

### CHOICE SET OF FIVE-CENT NICKELS

The Five-Cent Nickels, as well as all the other minor U. S. coins, are now in greater demand than ever before. They have advanced in value at least three or four times in just the recent past. And as the quantity of choice specimens is very limited indeed, I believe that the present prices for these choice coins are still "in their infancy." Their acquisition is certain to prove not only a gratifying source of possession, but certainly a profitable investment. This holds true of the entire series of the United States minor coins.

### LARGE UNITED STATES CENTS

From time "immemorial," the Large Cents have been the most popular series of our coinage. Four or five years ago they took a "vacation." But they are back now and in as great demand, if not greater, than they have ever been before. The collection here offered is far above the average.

- 861 1793 The first date and first type of the Large Cent, chain variety. Crosby 3-C, without periods on obverse. Few minor light nicks on edge. Strictly very good; can almost be classed as fine for this, which is far above the average. Nice even dark olive surface. Rare. Said to have cost \$30.00.
- 862 1793 Wreath type. Crosby 9-H. Extremely fine; just a shade or two from uncirculated. Two very light short scratches on obverse, in fact they appear to be nicks in the die. Glossy olive surface. A beautiful Cent; worthy of a home in any collection. Without the two very slight minor defects, this would have been at least a \$75.00 coin. Said to have cost \$40.00 a number of years ago.

- 863 1793 Wreath type. Crosby 6-F. Larger head and date widely spaced. Variety with die break on upper left edge above LI. Minute light dents on obverse and one on reverse. Not affecting the appearance or value of the coin in any degree. Attractive medium brown surface. Fine, strictly so. Rare.
- 864 1793 The very rare variety, type of 1794, Liberty Cap. Crosby 12-L. A pin-point nick between T and Y in LIBERTY, and a minute edge nick on upper left reverse. Well struck and centered, especially for this coin which is always found weakly struck. Strictly very good, but the coin can easily be classed as fine, especially for this variety. Dark steel color. Far above the average. Cost \$35.00 many years ago and worth much more today. Catalogs at \$100.00 in fine condition.
- 865 1794 Hays No. 13. A very light short nick on cheek, otherwise strictly fine with even brown surface.
- 866 1794 Hays 15. Strictly fine, glossy dark olive surface. Very scarce so choice.
- 867 1794 Hays 17. Obverse fine; reverse very good, or rather it is fine but not struck as bold as the obverse. Very light brown surface.
- 868 1794 Hays 46. Variety with die break on reverse. Strictly very fine, bold impression; well centered and struck. Rare; classed as Rarity 6. A handsome coin; worthy of a home in any collection. Cost \$25.00 several years ago.
- 869 1795 Plain edge, thin planchet, ONE CENT high in wreath. Slight imperfection in planchet on right obverse. Very fine, with some mint luster. Very scarce so choice. (Cost \$15.00.)
- 870 1795 The rare variety with lettered edge and hyphen between R and T in LIBERTY. Very good. Extremely rare. At one time this variety sold up to \$75.00.
- 871 1795 Thick planchet, lettered edge, perfect die. Doughty No. 67. Very nearly uncirculated. Perfectly centered and struck with dark glossy olive surface. A magnificent Cent. And today at least a \$40.00 or \$50.00 coin.

- 876 1797 Variety without stems to wreath and oblong die break on obverse. Very good obverse with about fine reverse.
- 877 1798 Small date. Nearly uncirculated but some vandal erased the 1 in fraction. Beautiful glossy olive surface with traces of original mint red on reverse. One of the most difficult dates of our early cents to find choice.

- 880 1799 over '98. By far the rarest variety of this, the rarest-date Cent. The obverse can be classed as about fine. The reverse is the same with the exception that it was weakly struck in the upper left and the letters STAT of STATES do not show. Dark steel color. Free from any nicks or dents. A most acceptable specimen of this rare Cent. Said to have cost \$40.00 many years ago.
- 881 1799 Perfect date. Nick on edge below the last 9. Strictly very good, fine for coin. Without the nick this coin would have been at least a \$50.00 to \$60.00 coin. As it is, it should bring from \$25.00 to \$35.00.
- 882 1800 over 1790, the 9 very plain under the 0. Doughty 145. Very fine, dark steel color; surface slightly roughed. The envelope in which it came from the owner is marked extremely rare. Cost \$17.50.

### UNITED STATES HALF-CENTS

- 1033 1793 Gilbert 2, wide date. Strictly very good; can be classed as fine for coin. Rare. Listed at \$20.00 in fine condition.
- 1034 1794 Small close date, high, near bust. About fine obverse with very good reverse. Very scarce. Catalogs at \$4.00 to \$10.00.
- 1035 1794 Date low. Strictly fine; free from any nicks or dents. Quite scarce so choice. Listed at \$10.00. This specimen said to have cost \$15.00.
- 1036 1795 Lettered edge; with pole to Liberty cap. Gilbert No. 1. Strictly fine; light brown surface. Listed at \$7.50 and certainly worth it.
- 1037 1795 Thin planchet; plain edge. Gilbert No. 5. The reverse struck off center, giving it a very wide milled border on the upper and right portions. Very good obverse with fine reverse.
- 1038 1796 Variety with pole to cap. The obverse can be classed as fine, especially for this coin, as the date and LIBERTY are unusually bold. The reverse, as usual with this rarity, is weakly struck, and the upper left portion of legend and the word HALF are not nearly as bold as the balance of the coin. But the coin shows even wear and is free from any serious nicks or dents. It is above the average for this great rarity. Catalogs at \$125.00 to \$225.00 in good to fine condition and it is certainly worth it. Probably one of the rarest, if not the rarest date copper coin of our series.
- 1039 1797 Struck on unusually small planchet; date close to bust; die break on obverse from chin to border. Struck off center. A nick on obverse, otherwise strictly fine. Purchased many years ago for \$5.75.

- 1040 1797 Variety with 1 over 1 in date. Plain edge. G. No. 4. Strictly fine to very fine. Very scarce so choice. Listed at \$7.50 in fine condition. This specimen cost \$10.00.
- 1041 1800 Fine. Scarce.
- 1042 1802 One of the best I have offered in a long time. Strictly fine with just the slightest pin-point nick on obverse edge. One of the most difficult rare dates of the Half-Cents to find better than good. Catalogs at \$20.00 in fine condition.
- 1043 1803 Stems to wreath. Nearly uncirculated, but light nick on edge; olive surface.
- 1044 1804 Plain and Crosslet 4 in date; the first without stems and the latter with stems. Extremely fine to nearly uncirculated. 2 pcs.

- 1052 1837 Eagle, U. S. Standard Weight & Value, Half Cent Worth of Pure Copper. Not a mint issue, but undoubtedly passed for its face value. Extremely fine. Very scarce and in demand.
- 1053 1841 Large-berry variety. Very fine. Originally struck as a proof, but now it shows slight evidence of circulation. Nice olive surface. Very rare. Catalogs at \$65.00 in proof condition. For some reason or other, this is about the only date of these rare later date Half-Cents which seems to have found their way into circulation.
- 1054 1842 Small berries. Beautiful iridescent proof with partly wire edge. Very rare and valuable. Catalogs at \$65.00.
- 1055 1843 Small berries. High wire edge. Struck as a proof, but it can now be classed as uncirculated, as it is not brilliant. Originally purchased as a proof. Nice even dark olive surface. Very rare. Listed at \$65.00.
- 1056 1848 Light olive proof. High wire edge. Variety with small berries. Extremely rare and valuable. Listed at \$65.00 and has auction record exceeding that amount.

### U. S. THREE-DOLLAR GOLD PIECES

Due to this odd-denomination coin, it is in much demand not only by collectors but by non-collectors as well, and for that reason they are now very scarce and in much demand. Since ordinary specimens readily retail at \$7.50 each, therefore in order to save time, all of the following \$3.00 gold pieces have a starting bid of not less than \$7.00.

1186	1854	First year of issue. Very fine.
1187	1855	Fine to very fine.
1188	1856	Uncirculated, frosty mint surface.

1204	1888	Nearly uncirculated. Scarce date. Listed at \$12.50 in uncirculated condition.

### U. S. FOUR-DOLLAR GOLD PIECE or "STELLA"

- 1205 1879 \$4.00. Beautiful head of Liberty with flowing hair. Reverse, five-pointed star on which is incused ONE STELLA 400 CENTS. Legend. Brilliant proof. Very rare and in great demand. Record well over \$200.00. I remember the day, not so long ago, when we thought \$100.00 was a high price for this coin. Although about 600 specimens were minted, but due to its odd denomination, it is sought after by many non-collectors, as well as collectors who do not especially go in for gold. Of all U. S. gold coins, I receive more requests for this coin than that of any other gold coin. And I believe this is true of every dealer.

# IMPORTANT FACTS

*for You to Consider---Before  
You Offer Your  
Collection!*

First, use your own thinking and analyzing. Do not rely on any claims.

Second, consider experience and reliability. (I believe all numismatic dealers are reliable.)

Third; MARKET. And here's where you are apt to go astray. Size of a city or the number of collectors in it does not make it a "Market." You **KNOW** that the number of buying collectors in ANY city represents only a small fraction of the total number of collectors in the country.

How many actual buyers attend the so-called public sales? They will not average more than twenty-five to the Sale. But my Quality Sales average more than Five Hundred (500) bidders at EACH SALE! (At some of my Sales nearly One Thousand bidders were represented.)

You must also consider where and how the various coin markets obtain their buyers. You can only obtain a large market by advertising,—creating new collectors. In the past twenty years I have spent over One and One-Half Million Dollars (\$1,500,000.00) for advertising. I paid as much as \$20,000.00 for one single advertisement. Often

## ***Important Facts***

(Continued)

I make a splurge and send out as many as Six Thousand (6,000) Sale Catalogs in one mailing. I have had as many as Ten Thousand (10,000) different buyers, small and large, in a period of one year.

Then the proof of the pudding is the prices realized. AND, last but certainly not least, is the Financial Responsibility of the dealer with whom you place your collection. This is VERY important to you. It gives you full assurance and a feeling of security that the value of your collection is safe and that you will receive the results of the sale or the value of the collection regardless of what happens. (Look me up in Dun and Bradstreet.)

And one last thought: If you prefer to sell outright for spot cash, I will pay you as much and more for your collection than it will NET you at any market and you will have the additional advantage of immediate cash payment. I can afford to do this due to my extensive advertising, which has built up for me, I believe and can prove, to be the largest numismatic clientele of any numismatic market.

What I've been trying to tell you is that you owe it to yourself to write me before you sell. I assure you of a prompt, courteous reply without the slightest obligation on your part.

Cordially yours,

**B. MAX MEHL.**
